

## Author

Omar Adel Abdel Hamid Ahmed Brikaa - 20206043 - S7 - brikaaomar@gmail.com

## GitHub repo

<https://github.com/Brikaa/tools-3-project>

## Prerequisites

- Docker
- Docker Compose
- A Unix/Linux environment (Git Bash, WSL2, Cygwin and the likes on Windows are ok)
- GNU Make (pre-installed on most GNU/Linux and Unix environments)

## Running

```
cd src  
make dev
```

To create the database schema (needed the first time you run the project)

```
make migrate
```

Access the app at `clinic.localhost`

## Tech stack

- MySQL database
- Redis PubSub messaging
- Go backend
- Angular frontend
